

PRICING PLANS

Learn more about the various price plans that we provide. You'll be able to make an informed decision about which plan is best for you.

Ordinary Plan

With an Ordinary account, you have a lot more flexibility for paying your service charges. Based on your total occupied units, our algorithm predicts how much you will be charged in a month, and you can top up any amount you choose. You are not required to top up the entire amount at once; instead, you can top up as needed depending on your account usage. For a basic account, we charge Ksh 1.8 for single standard SMS sent to your tenants. Depending on the size of the message sent, this SMS amount may vary. In addition, we charge you a service fee on any individual payments processed through our system (Refer to the image on the right). All the service charges are deducted from your service wallet. Always ensure you have funds in your service wallet for flawless service delivery.

35,000	49,999	100
50,000	150,000	125

Subscription Plan

A Subscription Service charges you a fixed monthly fee regardless of how much you use the account. Depending on the amount of occupied units you manage, we offer different options. Depending on the units you manage, the system will automatically determine the appropriate bundle. Every month, you will be sent an invoice to pay your subscription cost. You won't be able to utilize most of the services if your account is deactivated due to non-payment. The advantage of this form of account is that you may pay once and not worry about SMS or payment transaction fees.
